

Selover Public Library 3D Printer Policy

(3D Printing Policy: This policy is subject to change, without notice.)

- All print requests are handled on a first come, first served basis. Print turnaround time will be determined by the availability of the staff.
- Prints must be submitted in a .stl file. Email the file to Selover.robots.stem@gmail.com. We will confirm the print with an estimate of the cost.
- Files must be uncorrupted. Staff will not try to print an item more than twice.
- Objects must be capable of being printed during one run. (For example: 12 small flowers might be printed simultaneously if they are in a single file, but a larger robot might require several different print runs.) If there are multiple files for a large object, each file must be submitted separately.
- The maximum print size of the Monoprice is 120mm x 120 mm x 120 mm. (4.7in x 4.7in x 4.7in). The Dremel maximum print size is 254 mm x 152 mm x 170 mm (10in x 6in x 6.7in).
- You will be notified by email when your print is done. Items that are not picked up within 14 days after completion will become property of the library.
- Keep a copy of your files. Submitted files will be deleted by the staff at the end of the print.
- Mass manufacturing, or printing multiple copies of the same file, is prohibited without prior approval.
- The public will not be permitted to use 3D printers to create material that is:
 - Prohibited by local, state or federal law.
 - Including but not limited to drug paraphernalia, weapons, obscene or otherwise inappropriate items for the library environment.
 - Used to reproduce material that is subject to copyright, patent, trademark or trade secret protection.
- Cost: A minimum of \$1 will be charged. The cost will be \$0.50 per filament meter.

To discuss your print and get estimated time schedule and cost email us at:
